Caption: Whitman County Sheriff's Office, Electronic Communications Report by Conversation, Brett Payne, 11/14/22–12/28/22, redacted release. Case 22-M09903. Redactions under Idaho Code §74-105 and §74-124.

Conflict 1 — when the name is in the file

Keep every date. Do not collapse them into one “they learned the name on ____” line.

Date	What the record says	Source
11/29/22 ~00:28	Tiengo queries WSU-registered white Elantras. Hit: 2015 Elantra, PA LFZ-8649, Bryan Kohberger, 1630 NE Valley Rd Apt 201.	Affidavit
11/29/22 ~00:58	Whitman runs a 2015 white Elantra in that lot. Affidavit: returns to Kohberger with a Washington tag.	Affidavit
12/7/22	Public release is still the car. Not the name.	MPD release
12/12/22 09:39	Payne: run an Idaho plate. Reply: “the sus car that comes back to” a redacted name. That name is not printed.	IM original p. 25
12/12–13/22	Loma, CO plate reader on the WA plate. Affidavit language is Dec 13. That is travel on the plate. It is not the first name date.	Affidavit
12/20/22 17:17	Tiengo: “would you like the males name that's on the parking account?” Payne: “I just got it.” This thread is matching the PA run to Whitman's WA run.	IM original pp. 36–39

Name on the affidavit runs: November 29. That is before December 12. December 20 is plate-matching, not the first name hit.

Conflict 2 — white cars in the record (Elantra and Honda)

Do not mash these into one car. The IM log uses more than one white vehicle.

Date	Vehicle written in the record	Source
8/21/22 and 10/14/22	White 2015 Hyundai Elantra, PA LFZ-8649. Two PA expiration dates: 11/30 (affidavit) and 11/22 (Luengas on camera).	Duke stop / Luengas bodycam / affidavit
11/13/22	Neighborhood video: white sedan, PA plates, no front plate.	Affidavit
11/18-19/22	Same Elantra. WA title transfer Nov 18. WA plate CFB-8708 issued Nov 19.	WA DOL / KTVB
11/25 vs 11/28	Lookout for white Elantras. Affidavit date is Nov 25. Jenkins: the Nov 25 lookout "did not occur until the morning of November 28." Keep both.	Affidavit + Jenkins 1/5 email
12/4/22 16:43	Dispatch to Payne: "sent to MDC white 2014 elantra" to other redacted names. Year on that line is 2014, not 2015.	IM original p. 18
12/9/22 14:57	911: "white hyundai elantra in clarkston." They ask if Payne wants the plate.	IM original p. 25
12/20/22	Three plates on the same thread: PA (Tiengo), CA at N. Fairway tennis courts, WA at Steptoe (Whitman).	IM original pp. 36-39
12/20/22 17:18	Tiengo: "Any interest in a 2013 White Honda Civic?" Payne: "not at the moment." That is a Honda Civic. It is not the Elantra.	IM original p. 38

Case car in the affidavit: white 2015 Hyundai Elantra. Separate lines in Payne's IM: a white 2014 Elantra (Dec 4), a Clarkston Hyundai Elantra tip (Dec 9), and a 2013 white Honda Civic (Dec 20).

Date	What is taking place	Source
2021-2022	Corp. Curtis Whitman, WSU-PD, WSCJTC SAI-VCERT instructor.	cjtc.wa.gov SAI-VCERT + CSTR list
8/21/22	Duke stop. White 2015 Elantra, PA LFZ-8649. Phone ending 8458. Affidavit: plate set to expire 11/30/22.	Affidavit
10/14/22	Luengas stop. Same car, same PA plate. On camera: expires 11/22/22.	Bodycam / affidavit
11/13/22	King Road homicides. Video: white sedan, PA plates, no front plate.	Affidavit
11/18/22	Applies to transfer the PA title into Whitman County, WA.	KTVB PRA / Carfax / affidavit
11/19/22	WA plates issue. CFB-8708.	WA DOL
11/25/22	Affidavit: MPD asked area LE to look for white Elantras.	Payne affidavit
11/27/22	Payne email as quoted: "YOU ARE ORDERED NOT TO STOP, DETAIN, OR CONTACT THE DRIVER unless it is a life-or-death emergency."	Payne email as quoted
11/28/22 morning	Jenkins: Nov 25 lookout "did not occur until the morning of November 28."	Jenkins 1/5 email

11/29/22	Name + PA plate on Tiengo's WSU query. Whitman WA tag same night.	Affidavit
12/4/22	White 2014 Elantra sent to MDC — other names.	IM p. 18
12/6/22	Payne asks for two years of 1122 King Road calls, to him and fbi.gov.	IM pp. 18–19
12/7/22	Public release is still the car, not the name.	MPD release
12/9/22	Clarkston 911 white Hyundai Elantra tip.	IM p. 25
12/12–13/22	Loma, CO reader on the WA plate. Affidavit says Dec 13.	Affidavit + IM p. 25
12/15/22	Hancock County, IN stops.	Affidavit / bodycam
12/20/22	Payne / Tiengo / Whitman plate match. Honda Civic offered and declined.	IM pp. 36–39
12/29–30/22	Warrant Dec 29. Arrest in Pennsylvania Dec 30.	Court record

1122 King Road — IM original pp. 18–19

15:01:17 12/06/22 Payne: "Can you email all the calls for 1122 King Road before the 13th of november, email to [redacted] and fbi.gov?"

15:08:55 "C": "I can, how far back do you want to go?"

15:11:25 Payne: "last two years?"

15:12:49 "C": "Sounds good!! I will start working on it"

December 20 IM — original pp. 36–39

Payne asks for D.T. at WSU PD. "Were you riding with C W that night by chance?" Tiengo: no. Whitman "was driving around in his vehicle looking for a possible suspect at the same time I was."

Plate / car	Who	Where
PA Elantra	Tiengo, after the WSU parking system	WSUPD vehicle bays. Not the tennis-court car.
CA plate	Seen by Tiengo	Tennis courts on N. Fairway
WA plate	Curtis Whitman	Steptoe Village lot / Brandi Way
2013 white Honda Civic	Tiengo offers it. Payne: "not at the moment."	Same thread, p. 38

p. 39 Tiengo: "I believe I saw the same vehicle curtis whitman ran [WA] at Steptoe and not the PA one."

PA plates to WA plates

WSU PhD student from Pennsylvania. Home-state plates were lawful under WAC 308-99-040 while home of record stayed in PA. PA paper was coming due in late November. He switched.

Date	Source	Fact
8/21/22	Duke stop / affidavit	PA LFZ-8649. Affidavit: set to expire 11/30/22. No front plate.

10/14/22	Luengas bodycam	Same PA plate. Officer on camera: expires 11/22/22.
11/13/22	Night video	Still PA plates / no front plate.
11/18/22	WA title transfer	Applies to move the PA title into Whitman County.
11/19/22	WA DOL	New plate CFB-8708.
12/5/22	KTVB records	WA title issued.

A PhD student from Pennsylvania can legally keep Pennsylvania plates. He did, until the Pennsylvania expiration window, then he registered in Washington on November 18 and received plate CFB-8708 on November 19.

13:18:34 11/24/22 F: S § W § T: bpayne Not that night shift passed on. I will double check.

13:18:53 11/24/22 F: Brett Payne T: s § ok, thanks!

13:29:02 11/24/22 F: S § W § T: bpayne Yesterday morning there was a dog that had stab wounds. Pullman case 22-P10580.

13:30:55 11/24/22 F: S § W § T: bpayne I asked the Pullman officers on about a stabbing or cases involving a knife that nightshift would have passed on to them and this was the only case they were aware of. It was reported at 0851 yesterday morning.

13:31:06 11/24/22 F: S § W § T: bpayne I've had Pullman, WCSO and WSUPD since 0700 this morning.

13:36:39 11/24/22 F: S § W § T: bpayne I read the report and this was a fight between two dogs. When the attacking dog would not release the victim dog, the victim owner took out a knife and stabbed the dog several times until the dog did releases and died. All parties have been contacted and identified.

13:43:57 11/24/22 F: Brett Payne T: s § copy, thanks!

What this sheet actually shows

Proof chart for the Whitman County Sheriff's Office Electronic Communications Report by Conversation — Brett Payne (Moscow PD case agent, 22-M09903). Companion file: the original redacted sheet, uploaded in full.

This is not a theory document. It is a page-cited map of what Payne asked dispatch and WSU PD to do in writing, in November–December 2022. Names, plates, and addresses are redacted in the source under Idaho Code §74-105 and §74-124. What is not redacted is the work itself: vehicle/owner queries starting the day after the homicides, a demand for two years of 1122 King Road call history sent to Payne and to fbi.gov, and a December 20 reconstruction of which plates Sgt. Curtis Whitman and Officer Daniel Tiengo ran on the white Elantra.

1. The 1122 King Road request — send it all to him (and FBI)

PROOF LINE — 15:01:17 on 12/06/22 · source sheet pages 18–19

Payne to “C”: “Can you email all the calls for 1122 King Road before the 13th of november, email to [redacted] and fbi.gov?”

“C” (15:08:55): “I can, how far back do you want to go?”

Payne (15:11:25): “last two years?”

“C” (15:12:49): “Sounds good!! I will start working on it”

Payne (15:13:18): “thank you so much!”

That is the whole ask, in his words: every CAD/call record on the murder house for the two years before November 13, 2022, emailed to Payne’s address *and* to an fbi.gov address. Not a single night. Not “recent calls.” Two years. Routed to him.

Same afternoon on page 18 he is still running plates. The King Road dump is not a side errand — it sits in the same workstream as the vehicle queries and the FBI registration requests that started November 19.

2. Chart — what is taking place, in order

Read left to right. “What is taking place” is the action in the IM, not an inference about motive. Page numbers are the source sheet (the original 39-page conversation report, plus redaction log).

When	Sheet	Who	What is taking place
11/14/22 12:59	p. 1	Payne → dispatch	Day after the homicides. Asks for an RNQ on a named person (DOB 1962) and “any vehicles registered to him.” Vehicle/owner hunting starts immediately.
11/15/22	p. 1	Payne / A / Blaker	Ring-camera burglary video, patrol handoff to Stirk, “whats the word?” — ordinary desk traffic sitting next to the new homicide work.
11/17/22 14:53	p. 2	Payne → W	DNQ on a name/number; “please keep this DL”; “I need all vehicle registered to him.” Officers on a group thread ask if anyone was just at a redacted address; Thueson: “ISP may have been there looking for video.”
11/19/22 10:45	p. 3–5	Payne → A	Asks who made the initial 911 call on 22-M09903 (the King Road case number). Dispatcher cannot pull 9903 — “it literally skips 9903.” Payne is walked to the CA/involvements screen. Dispatcher later IDs a likely caller via FastPeopleSearch. Payne: an FBI person “is gonna call you here soon with a request for some registrations” and to attach them to 22-M09903.
11/19/22 15:37	p. 5–6	Payne → S W	RNQ on vehicles for another name, Idaho and Washington, “everything please.” Return: nothing in WA; WA record shows a redacted address. Same evening: “Is the FBI roaming around Paradise Dr area?” Payne: “yup!”
11/21–22/22	p. 7–11	Payne → A	More registered-owner and plate work: Washington vehicles, Camry plate, Idaho VINs, Silverado and S10 “in locals,” Oregon plate with no return, Hyundai Elantra VIN through OR. Dispatch blows up his MDC sending national returns.

When	Sheet	Who	What is taking place
11/24/22	p. 12	Payne → S W	Asks if there was a stabbing in Pullman that morning. Answer: dog-on-dog fight, owner stabbed the attacking dog. Case 22-P10580. He is scanning Pullman for any knife case.
11/25/22	p. 13–14	Group / Warner	Threatening-note tip; Warner: “west pullman nom nom, dude from out of town MN and a bit 220 about the murders.” Tip traffic about the homicides is already on the same channel.
11/27/22	p. 14–17	Payne → A	DNQ/RNQ on more names (ID + WA), VIN through WA/ID (ID system down), Stratus, White Ford Explorer, vehicles-by-address (dispatch says they cannot run that way). Night-shift security-guard call on a redacted address.
12/04/22	p. 17–18	Payne → A	Asks for Moscow PD NCIC ORI. Dispatch: crazy callers “from all around the country and canada.” Payne: “this has brought out lots of interesting folks.” Then a plate run returns a white 2014 Elantra to two redacted names — a year off the 2015 that later becomes Suspect Vehicle 1.
12/06/22 15:01	p. 18–19	Payne → C	THE 1122 DUMP. Email all calls for 1122 King Road before Nov 13 — last two years — to Payne’s address and fbi.gov . “C” starts working it the same afternoon.
12/07–16/22	p. 19–33	Payne / dispatch	More RNQs (WA and ID), a NV VIN, “sus car” returns, expired grey 2015 Ram out of CDA, plates with no color listed. 12/09: 911 caller saw a white Hyundai Elantra in Clarkston ; dispatch asks Payne if he wants the plate. 12/15: Payne asks who is on scene at “the shooting location in Pullman” and wants the watch commander’s number.
12/20/22 16:45–17:56	p. 36–39	Payne ↔ D T (WSU PD)	THE WHITMAN THREAD. Payne asks for the cell of “D T” at WSU PD, then: “were you riding with C W that night by chance?” DT: no, but Whitman “was driving around in his vehicle looking for a possible suspect at the same time I was.” Payne: Whitman “ran another plate at the same location but it was washington plate.” DT separates a PA plate he ran, a CA plate at the N. Fairway tennis courts, and the WA plate Whitman ran at Steptoe . Payne maps GeoBase to “northeast valley road apartments.” DT: Steptoe Village / Brandi Way, parking permit, offers the male name on the parking account (“same as the RO of the vehicle”). Follow-up: “the same vehicle curtis whitman ran [WA] at Steptoe and not the PA one.”

Group-chat name-strings on the right side of many pages (adahling / morris / bpayne / csmith / ...) are the department distribution list, not extra parties to each message.

3. Chart — Payne, Tiengo, Whitman, and the plates

Public affidavit (written by Payne) already names the two WSU officers: Officer Daniel Tiengo queried WSU-registered white Elantras and hit a 2015 white Elantra, Pennsylvania plate LFZ-8649, registered to Bryan Kohberger at 1630 NE Valley Road, Apt. 201, Pullman. The same date, Sgt. Curtis Whitman found a 2015 white Elantra in that parking lot and ran it; the affidavit says it returned to Kohberger “with a Washington tag.” This IM log is Payne, on December 20, still lining those two runs up against radio logs and the parking system.

Plate / hit in the IMs	Who ran it (per DT)	Where DT says it was	Why it matters on the sheet
PA plate	DT (Tiengo) ran it	After checking the WSU parking system, while parked in front of the vehicle bays at WSUPD — not the tennis-court car.	Matches the affidavit’s PA plate LFZ-8649 query. DT is explicit: the PA plate he ran is a different observation than the car at N. Fairway.
WA plate	Curtis Whitman ran it	Steptoe Village lot. DT says they met there after Whitman saw the WA plate and told him he ran it as they roadsided in the lot.	Matches the affidavit line that Whitman ran the car and it returned with a Washington tag. Payne is the one who first says Whitman ran a WA plate “at the same location.”
CA plate	Seen by DT	Tennis courts on N. Fairway. DT: “The one I saw at the tennis courts was the CA plate.”	A third plate in the same night’s lookout. It is on the sheet. It is not the PA plate and not the WA plate Whitman ran at Steptoe.
Residence / lot	Payne maps it; DT confirms	Payne: “geobase looks like northeast valley road apartments?” DT: Steptoe Village Apartments, apartment off Brandi Way, active parking permit, “top large parking lot.”	1630 NE Valley Road is the address Payne later writes into the affidavit as Kohberger’s. The IM is him testing that map against DT’s memory of the lot.

PROOF LINES — 12/20/22 · source sheet pages 36–39

16:45 Payne: “can you give me the cell number of d t from PPD”
 16:46 Payne: “WSU PD sorry”
 16:46 Payne: “hey, this is Det. Payne from MPD, you online?”
 16:58 Payne: “were you riding with C W that night by chance?”
 17:01 DT: “I was not, but he was driving around in his vehicle looking for a possible suspect at the same time I was”
 17:02 Payne: “awesome, he ran another plate at the same location but it was washington plate”
 17:03 DT: “the PA plate I ran was not the one I saw at the tennis courts on N. Fairway. The one I saw at the tennis courts was the CA plate”
 17:04 Payne: “cool, any memory on the PA one?” / “geobase looks like northeast valley road apartments?”
 17:12 DT: “yeah the parking lot at Steptoe Village Apartments... top large parking lot located off of Brandi Way”
 17:17 DT: “would you like the males name that’s on the parking account? I believe it’s the same as the RO of the vehicle”
 17:55 DT: “I believe I saw the same vehicle curtis whitman ran [redacted] WA at Steptoe and not the PA one... I ran the PA one after checking parking system while parked in front of the vehicle bays at WSUPD...”

4. What this is — and what it is not

What the sheet proves in Payne’s own messages: (1) vehicle and owner queries begin 11/14; (2) he treats 22-M09903 as his case on 11/19, including the first 911 call and FBI registration traffic; (3) on 12/06 he orders two years of 1122 King Road calls sent to him and to fbi.gov; (4) on 12/20 he personally reconstructs Curtis Whitman’s WA-plate run versus Tiengo’s PA-plate run versus a CA plate at N. Fairway, and he maps the lot to northeast valley road / Steptoe Village.

What the sheet does not prove by itself: that Whitman “gave Payne Bryan’s car” on the night of November 13, or that the December 20 thread replaces the affidavit. It is Payne, as case agent, still sorting which officer ran which plate at which lot, three weeks after the public timeline says those officers found the Elantra. The value of the sheet is the paper trail: who asked, who ran, which plate, which lot, and the 1122 dump going to him.

Source pages 36–39. Payne gets DT’s cell, identifies himself as Det. Payne from MPD, asks if DT was riding with C W “that night,” then works PA vs WA vs CA and the northeast valley / Steptoe lot. Page 39 is where DT writes the name “curtis whitman.”
